DETAILED ACTION

Response to Amendment

Amendment filed 01/26/04 forms the basis of this Office Action. In said Amendment Applicant amended claims 1, 5-8, 17, 29, 31-35 and 37.

Response to Arguments

Through said Amendment Applicant has overcome the objections to claims 1-19, 29-30, 31-35 and 37, and the rejections under 35 USC 112, second paragraph of claims 5-8 and 17.

Allowable Subject Matter

1. ***Claims 1-35 and 37*** are allowed. The following is an examiner's statement of reasons for allowance: closest art found to date is Forbes (6,104,061), on which all rejections of claims 20-28 have been based in the previous Final Rejection mailed 8/4/2003. However, Forbes does not teach the first offset voltage potential to be applied to the active source region but instead to the active channel region through the word line, i.e., through the gate. An update has not revealed any other prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
